Real People. Real Connections. Honest Conversations.

Connecting cancer fighters, survivors and previvors with their very own cancer confidante

Through our personalized matching process, people diagnosed with cancer or a genetic mutation are connected with someone who's faced a similar diagnosis – a Mentor Angel. While each cancer experience is unique, individuals are matched by similar life experiences, such as age, gender and diagnosis. This provides cancer fighters the opportunity to ask personal questions and receive support from a peer familiar with the situation who can offer empathy in a way others cannot.

How we help cancer caregivers and loved ones

Imerman Angels connects those caring for – or grieving the loss of – a loved one with Caregiver Mentor Angels who can help provide support and comfort throughout their journey.

Our services are **FREE** for everyone.
